BIO

Competitive Programmer and aspiring software Engineer with a solid foundation in DSA, OOP, and software development. Active on Codeforces, LeetCode, and CodeChef. Participated in ICPC, NCPC, and IUPC.

WORK EXPERIENCE

Full Stack Software Engineer (It Consultant), Financial Reporting Council Jan 2026 - Present

Currently contributing to a government financial ERP system built with the Laravel framework (PHP), where I focus on integrating AI/ML capabilities to automate financial workflows and enhance data-driven decision-making.

Software Engineer, Dream71 Bangladesh Ltd Feb 2025 - Dec 2025

I was involved in the development of a data-driven web platform built with PHP Laravel for a project under the NGO Affairs Bureau (NGOAB) in collaboration with UNDP

Jr. Software Engineer, Mediusware Ltd July 2024 - Feb 2025

I have developed and maintained scalable Laravel applications using MVC, SOLID principles, Eloquent ORM, RESTful APIs, and optimized databases with migrations, seeding, and Blade templates. I also develop custom WordPress themes and plugins, integrating with Astra, Divi, and Elementor, and implementing dynamic blocks and custom post types.

Software Engineer Trainee, Mediusware Ltd Apr 2024 - Jun 2024

As a software engineer trainee, I have gained experience in PHP and the Laravel framework, worked on live Laravel, wordpress projects and learned WordPress theme and plugin development. I also became familiar with GitHub.

Junior Trainer, BUBT Apr 2023 - March 2024

Trained newcomer students of Bangladesh University of Business and Technology (BUBT) in competitive programming.
